

Reimagining Silicone Solutions in Healthcare

Peace of Mind At Every Stage

JAMAK

PAVING THE WAY FOR
INNOVATION IN
HEALTHCARE AND MEDICAL
MANUFACTURING

Jamak has 50 years of experience in silicone elastomer production. We lead the industry in extrusion and molding products for many industries including; medical, consumer goods, automotive, appliance, aerospace, marine, building design and agriculture. We are dedicated to meeting our customer's needs through progressive engineering, custom manufacturing, and global sourcing.

Choose Jamak and choose **experience, quality, speed, creativity, efficiency** and **flexibility** for your team.

**JAMAK. MADE IN THE USA FOR FIFTY YEARS WITH
QUALITY & INTEGRITY YOU CAN COUNT ON.**

The **Made In The USA** label provides confidence that products meet the FDA requirements when it comes to food and healthcare products.

Jamak has experience manufacturing all over the world. We focus our efforts on our US-based manufacturing because we know we can deliver a superior product at a fair price, competitive with offshore pricing with much less risk.

THE REAL RETURN OF INVESTMENT

PEACE OF MIND

When you partner with Jamak, you can sleep well knowing that we won't rest until we find the right solution for you.

Jamak is a U.S. based operation strategically located in the middle of the country. Our fully integrated facility allows us to design, compound material, test and manufacture in one location. We can be more nimble than our competitors who outsource various aspects of production. This provides a strategic advantage we share with you.

BENEFITS OF SILICONE

Antimicrobial

Easily Sterilized

Heat Resistant

Flame Retardant

Low Chemical Reactivity

High Skin Biocompatibility

Resistant to X-Ray Radiation

Temperature Stable at High & Low Temps

MEDICAL & HEALTHCARE DIVISION

Jamak's Medical and Healthcare Division manufactures custom medical components ranging from over-molded surgical handles to radio-opaque neonatal tubing. Jamak offers many value add services including; engineering and design, custom compounding, secondary assembly, printing and packaging.

MEDICAL APPLICATIONS*

PATIENT CARE

Catheter Tubing, Wound Drainage, Drug Delivery, Nutrition Tubing

NEO-NATAL

Catheter Tubing, Drug Delivery, Nutrition Feeding Tubing

AIRWAY MANAGEMENT

Masks, Bougies, Tubing, Components

PERISTALTIC PUMP TUBING

Platinum or Peroxide Grade

SURGICAL INSTRUMENTS

Ergonomic Fit and Feel Handle Molding

STERILIZATION TRAYS

Pin Mats, Extrusions

SIMULATION MANNEQUINS

Skin Components, Airway, Lung Sick, Tongues

THERAPY PUTTY

Color Changing, Heat Therapy, Standard Grades

DENTAL

Gas Transfer Tubing, Masks, Dental Instrument Handles

VETERINARY

Catheter Tubing, Drug Delivery, Nutrition Feeding Tubing

MEDICAL CAPABILITIES*

TUBING

Single Lumen
Multi Lumen

MOLDING

LSR
HCR
Transfer
Over-Molding

FINISHING

Tipping
Drilling
Printing
Bonding
Assemblies

MATERIALS

FDA & USP Class VI Silicones
Radio-Opaque

Partial List

CAPABILITIES

MEDICAL PRESS

Size: 10x10, 15x15 up to 27" x 33"

Pressure: 80 to 800 ton presses

Thickness: .2 inches and up

Tolerance: RMA A1 through A4

Packaging: Individual Units to Bulk

MEDICAL EXTRUSION

Feed Rate: up to 30 feet per minute

Width: OD up to 1:00"

Thickness: Up to 0.062

Tolerance: E1 through E3 on Tubing

L1 to L3 on Length

Packaging: Individual Units to Bulk

COMPLIANCE

CERTIFIED CLEAN ROOM
ISO CLASS 8 EXTRUSION

CERTIFIED CLEAN ROOM
ISO CLASS 8 MEDICAL
MANUFACTURING

QUALITY MANAGEMENT SYSTEM
ISO 9001: 2015

BIOCOMPATIBLE MATERIALS
FDA & USP
CLASS VI SILICONES
