Qualifications: ISO 13485, ISO 9001, Supplier to Medical Manufacturers, Exhibitor in at least 2 MD&M and/or MEDTEC shows

Markets Supplied: North America, Europe

Jamak Healthcare Technologies manufactures custom silicone components for the OEM healthcare market using USP Class VI medical grade silicones for more than 35 years. The company's extensive experience with molded-in-place, insert molding and over molding technologies transitions well to the manufacture of silicone handles for handheld surgical instruments as well as other complex LIM components. JAMAK Healthcare Technologies offers cleanroom molding and close tolerance silicone extrusions.
